

MAMS

GROUP

The MAMS Group provide domestic and commercial waste solutions that support communities and small businesses. We build local partnerships that create and support innovative waste management strategies. We do it for our family and yours.

The MAMS group is a locally owned and operated family business, that was started by Brian and Bernice Day in the early 1990's. Bernice and Brian are now working with their children and partners to enhance and expand the business.

With services throughout North Queensland and employing over 35 local residents between Ingham and Innisfail, MAMS has a multi skilled workforce and our key employees work within all divisions of our business.

We place as much importance on our staff as we do our customers – and we have endeavored to create a pleasant, honest and safe working environment together with a culture of trust, honesty and respect.

We have a reputation for honesty and good customer service and this is evidenced in the contracts that MAMS has held during it's operation, some going for more than 20 years.

MAMS was awarded the Hinchinbrook Shire Council Refuse Removal Contract for the Period 1st July 1995 to 30th June 2005. This contract was MAMS first introduction to Waste Management and the success of this venture was evidenced when MAMS won the contract back through tender in 2005. During the last 14 years, MAMS has established a reputable commercial waste collection service in the Hinchinbrook shire incorporating domestic, commercial and industrial waste services. Since the inception of MAMS Environmental Services Division we have obtained an EPA Licence to transport Regulated Waste Materials including Asbestos.

In 2016, the MAMS Group ventured north into the Cassowary Coast Region, this was done with an acquisition of Subloo's Innisfail division. This geographically expanded our commercial waste services and reintroduced MAMS into the management of Transfer Station's and Landfil sites. It was with pride that the family felt able to successfully complete this expansion and therefore offer over 20 local Cassowary Coast staff job security.
